

MASTER BODY

STRIKER

When considering the rough and unforgiving world of fighting wildland fires, it takes a special breed of apparatus to survive the punishing abuse of the mountains of the West. An environment so severe, that fire crews often end up carving new roads to reach the fire. When the pavement ends, the *Striker* from Master Body is built to successfully meet and complete the call. Whether cruising municipal roads, or cutting paths across rugged terrain, the Attacker is right at home, ready to perform in any situation.

Shortest Wheelbase: 170" for excellent maneuverability.

Low Center of Gravity: Operating envelope of up to 34° on a side slope.

500 - 800 gallon Water Tank: Spring mounted integral water tank allows for a short wheelbase & low center of gravity while still providing at least 200 gallons more than a standard light duty (pick-up) truck.

500 GPM Pump PTO System: PTO two-stage Waterous fire pump provides versatile application for a variety of situation demands.

Auxiliary Pump: Waterous 511A auxiliary pump for full pump and roll capability.

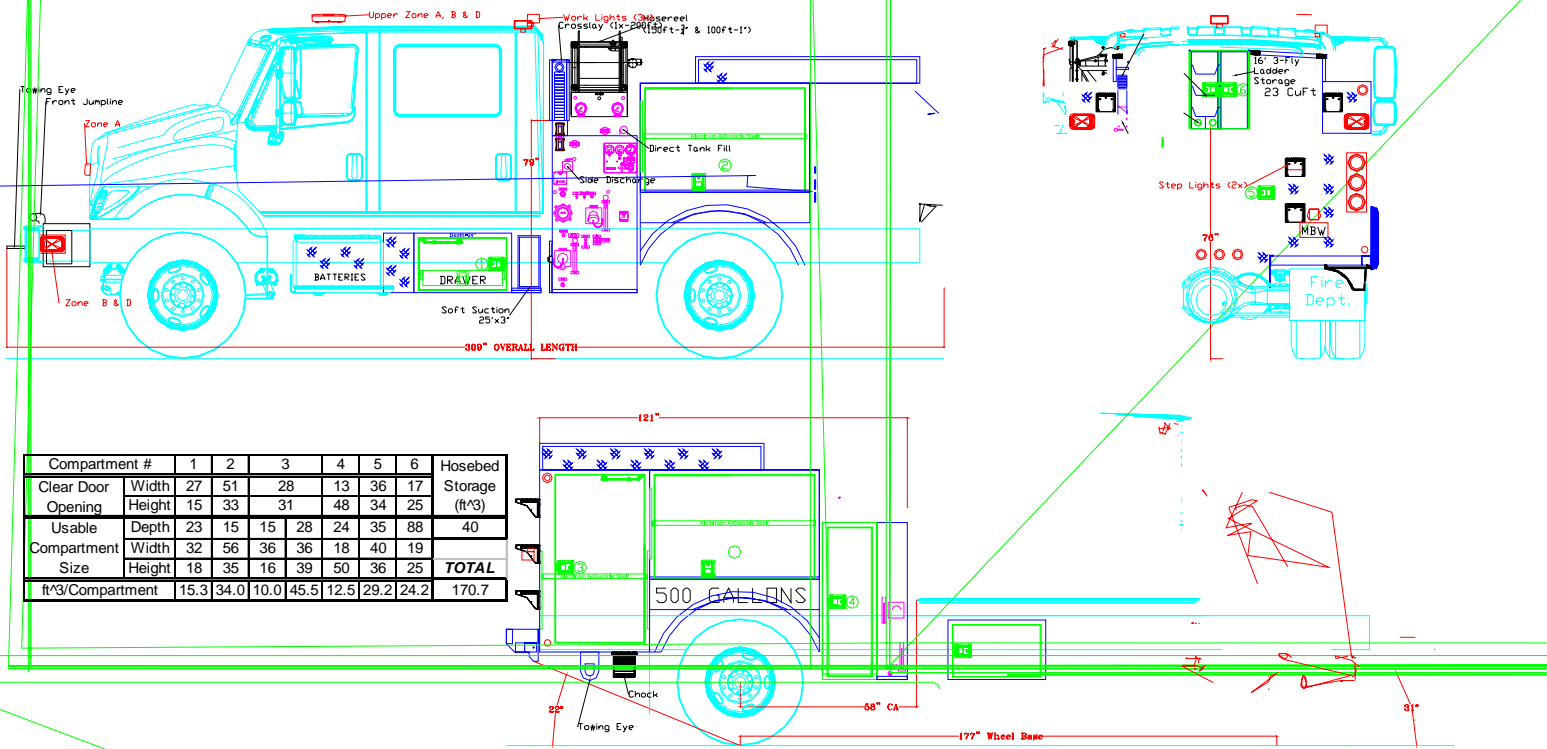

Compartmentation: Over 120 cubic feet of compartment space with large door openings, compartments for hard suction, pike pole and ladder storage.

Class A Foam System: Standard FoamPro 1600 class A foam system specifically engineered for wildland/I-zone urban interface apparatus.

When making a decision to purchase an Urban/Interface apparatus... Make the call!
Build your fleet with quality...build it *MASTERfully!!!*

STANDARD FEATURES

- ◆ 4 door International 7400 4x4 or 4x2
- ◆ 330 HP engine @ 950 foot pounds of torque
- ◆ Allison EVS3000 or EVS3500 transmission
- ◆ Diamond logic integrated electrical system
- ◆ Wheel base 170" 4x2 and 177" 4x4
- ◆ 500 GPM PTO two stage pump
- ◆ Auxiliary pump Waterous 511A
- ◆ 500 gallon stainless steel integrated water tank
- ◆ FoamPro 1600 class A foam system
- ◆ 20 gallon integrated foam tank
- ◆ 40 cubic feet of hose bed space
- ◆ Over 170 cubic feet of compartment space
- ◆ Booster reel
- ◆ NFPA LED lighting package
- ◆ Cross-lay for 200' of 1 3/4" hose
- ◆ Rear pre-connect for 150' of 1 3/4" hose
- ◆ Front pre-connect for 50' of 1 3/4" hose
- ◆ Rear pre-connect

OPTIONAL ITEMS

- ◆ 4 x 4 and 4 x 2
- ◆ Different power plant options
- ◆ Many pump options
- ◆ Hydrostatic pump system
- ◆ Up to 800 gallon water tank
- ◆ Dual foam systems class A/B
- ◆ Larger foam tank
- ◆ Compressed air foam system—CAFS
- ◆ Remote monitors
- ◆ Generator or 110V power options
- ◆ Scene light options
- ◆ SCBA seats
- ◆ Medical gear storage in cab
- ◆ Emergency lighting
- ◆ Many plumbing options
- ◆ Many body options
